

Gowtham B C

[\(Visit Website\)](#)

Wilhelmshavener str., 10552 Berlin | +49 17667460202 | Visa: Permanent Resident | bcgowtham17@gmail.com | Relocation: Throughout Europe | Start job: 2 Week notice | **German: B2** | English: C1

Professional Summary

Senior Artificial Intelligence Engineer with 8 years of expertise in Cloud-based platforms, Full stack engineering, AI integration applications (LLM) for real-world use cases. Developing tools & infrastructure scalable **AI / LLM pipelines and working with text and image datasets embedding, RAG, model training, Prompt Engineering, Production deployment**. Strong proficiency with hands-on experience in Python, Typescript, React, Fast API, Data Lake, Kubernetes, Azure DevOps, MCP, Pytorch, LangChain, LlamaIndex, Ollama for AI development. Strong background in Natural language processing, & Deep learning architectures: BERT, Gemma, GPT4, Llama, Claude, sLLM.

Professional Experience

Senior AI engineer (LLM, ML)

Solventum OPC private limited – Berlin, Germany

August 2024 – Present

- Architected a production-grade Microservices LLM solution Ollama/Langchain, Agentic AI autogen and **crew ai** that achieved a P95 latency of <200ms & resistance to model and data drift, validated: langfuse monitoring, **Qdrant & MCP server** on dataset from various databases & data lakes pyspark.
- Agile methodology application design: Integrated **vector graph databases for RAG conversational agentic AI** with development including prompt engineering, fine-tuning **Quantization GGUF**, LoRA evaluation & anomaly detection with **cloud-based platforms docker Kubernetes deployment**.
- Improved time-to-deployment (TTD) for ML models by 40% using automated CI/CD pipelines Azure DevOps, **RAGAS** to quantify "faithfulness" and "answer relevancy."
- Mentored junior team members, knowledge sharing technical excellence in solution deployment, architecture planning, system design sessions, problem solving algorithms, software engineering best practices, evaluations Benchmarking, technical documentations, code reviews.

Mid Senior Research AI engineer

IISYS Institute – Hof, Bayern, Germany

(Wissenschaft Mitarbieter)

October 2021 – July 2024

- Collaborated with cross-functional teams to integrate computer vision & ML models into scalable, real-world applications using datalakes for automobile products of 2100+ text and image categories.
- Integrated prompt engineering, including concepts such as zero-shot, few-shot, chain-of-thoughts.
- Developed User friendly user interface Dashboard, RESTful async Fast API / Django stack, Typescript ReactJS, Framework: Pytorch, TensorFlow, Orchestration: MLOPS Docker microservice architecture Testing: A/B testing, POC: Streamlit, Monitoring: Grafana, Prometheus, CICD: Docker, Kubernetes

Senior Data science & Machine Learning engineer

CGI & Mindtree – Bengaluru, India

(Senior Software Engineer)

July 2017 – February 2020

- Azure Chatbot: As **Early adopters** developed data pipelines for multimodal creation of text dataset, Machine Learning Customer recommendation system for sentiment analysis, entity recognition.

- Developed a secure, scalable backend using python, REST Api's, SQL for a real-time project monitoring system UI UX Designs for chatbot multi agent systems on Azure cloud platforms.
- Integrated continuous monitoring with cloud services, ensuring seamless data flow & advanced data science analysis and visualization tools, resource optimization using **Power BI, Tableau**.

Education

M.Sc. Master's in applied research in Computer Science

Hochschule Hof – Hof, Germany

Graduated: September 2021

Thesis: **Qualitative Analysis of 3D reconstruction of objects” sensor fusion of RGB & Depth lidars**

B.E. Bachelor's in computer science & engineering

Visvesvaraya Technical university – Bengaluru, India

Graduated: July 2017

Skills

- **Programming Languages:** Python, Bash, MongoDB, SQL, C++, Power BI, Tableau, Data lakes
- **Front End:** HTML, Javascript, Node.js, ReactJS, ExpressJS Rest API's, FastAPI
- **Deployment:** Docker, Kubernetes **CI/CD pipelines:** AWS, GCP, Azure DevOps, Jenkins, Terraform,
- **AI Frameworks:** Tensorflow, Pytorch, Huggingface, Numpy, Pandas, Scikit Learn, YOLO, MCP
- **LLM's:** Transformers, LLaMa 3, BERT, GPT 3, GPT4, Mistral, Langchain, Gemini
- **Collaboration Tools:** Scrum, Agile workflow, Firebase, MLOps, **Version Control:** Jira, Git, Github,
- **Development:** Parallel Threads, CUDA, Distributed Training, Design principles, Agile Development
- **Language Proficiency** (written and verbal communication skills): **German (B2), English (C1)**

Research Paper Publications

- Buvalli Chikkathammaiah, Gowtham & Prakash, B.. (2019). **I3 Bot: Empowering Small and Medium Scale Enterprises with Machine Learning**. International Journal of Scientific and Research Publications (IJSRP). 9. p90108. 10.29322/IJSRP.9.06. 2019.p90108.
- Buvalli Chikkathammaiah, Gowtham (2022) **Creation of the 2D synthetic dataset and Transfer learning for Custom object detection** International Journal of Scientific and Research Publications (IJSRP). 9. p93108. 10.24552/IJSRP.9.06. 2022.p50206.
- Buvalli Chikkathammaiah, Gowtham (2021) **3D Human Pose estimation Avatar control in Virtual Reality** International Journal of Scientific and Research Publications (IJSRP). 7. p92113. 10.24552/IJSRP.9.06. 2021.p99550.

Certifications

- **Microsoft Certified: Azure AI Fundamentals**
- **Professional Scrum Product Owner 1 Certification**
- Data Security: **Information Security Management System based on ISO/IEC 27001:2022**
- Data handling: **EU General Data Protection Regulation (GDPR)**
